
Hydro Bond Engineering Ltd: Field Support Services

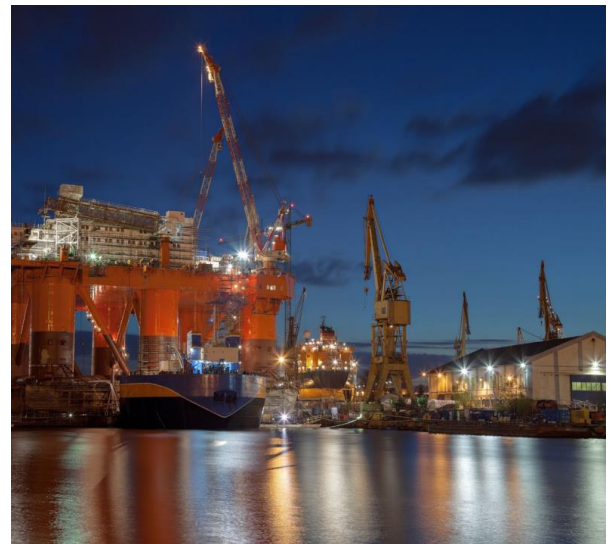

Electrical and mechanical terminations, moulding services

Hydro Bond Engineering Ltd offers field support services including terminations, moulding and product installation. Our competitive technician rates are inclusive of all standard equipment required to carry out the work and provide a full cost breakdown of day, overtime and travel rates and additional fees.

Hydro Bond Engineering is a Hydro Group Plc company. The Group has over three decades of global experience, supporting oil and gas, renewable energy and defence industry clients throughout every stage of the product lifecycle.

As part of Hydro Group, Hydro Bond uses specialist equipment to support its on-site services:

- Light Meter WG-OLS-6 Single-mode at 1310 nm and 1550 nm
- Light Meter WG-OLS-5 Multimode at 850 nm and 1300 nm
- Optical Power Meter WG-OLP-15B for testing at 750 nm, 850 nm, 1300 nm, 1310 nm and 1550 nm
- OTDR EXFO FTB-300 Multimode
- OTDR Wavetek TTS 5000 (Single-mode)
- Laser Torch fault locator
- Certified Single-mode and Multimode test leads
- Cat 5 cable PentaScanner
- Megger insulation and resistance tester BM80/2 and BM403
- Biddel high voltage insulation and resistance tester to 70kV DC
- Danbridge high voltage tester
- Fluke multimeter 787 and 83
- Farnell low-resistance test set

We stock a broad range of electrical and optical termination equipment for all types of termination, repairs and moulding in both polyurethane and polyethylene. Purpose-built field-installable terminations and mould tools can be created through our engineering department upon request.
